Dear Parent/Carer

RE: Year 10 Business Studies Class

As a department we have been reviewing the needs of our Year 10 Business Studies class, assessing the progress made and the dynamics of the group. In order to ensure that we secure the best outcomes for all our students in their GCSE examinations we are going to adopt the following focussed intervention strategy:

- The class will be split into 2 separate groups
- This will enable a keen focus on the needs of all the students by ensuring there is clear differentiation, specific feedback to individuals as well as targeted topic tasks to develop key terminology and knowledge.
- Both groups will experience teaching from Mrs Friend and Mr Brown, and will be given a variety of different exercises to complete to ensure learning and enable the optimum levels of progress.

A further review of progress will be undertaken at the end of this term to determine how successful the strategy has been and to plan for next steps.

Please do not hesitate to contact me if you would like to discuss this further.

Kind regards,

Mrs Friend
Learning Leader for Business Studies
