Dear Parent/Carer

Re: Launching Magic School - Benefits for our Students

We are excited to introduce Year 7 students, parents and carers to Magic School, a resource designed to enhance our students' learning experiences. This platform offers various benefits, including a safe and structured environment for utilising AI tools that support academic growth.

We strongly suggest that students use this platform exclusively, as it is safer than ChatGPT and other AI sources. To further assist our Year 7 students, we have set up dedicated tutor rooms equipped with bespoke apps specifically designed for various subjects, including tools to teach digital literacy. Additionally, Magic School can be accessed from various devices, allowing students to learn anytime and anywhere.

Our students will also complete the Magic School Student Training Module, which teaches them how to use AI safely and responsibly.

For further information, please see our online video https://cgss.co/magicschool which explains the tools and how they can support learning.

To support your child in making the most of this platform, consider the following ways:

1. Encourage Exploration: Motivate your child to explore the various tools and resources available on Magic School.
2. Set Usage Guidelines: Help establish a routine for using the platform, ensuring that your child dedicates time for study while balancing other responsibilities.
3. Discuss Safety: Reinforce the importance of using Magic School exclusively, as it is designed with safety in mind.
4. Engage with Content: Take an interest in what your child is learning. Ask them about the subjects they are studying and the apps they find helpful.
5. Provide Feedback: Encourage your child to share their experiences using the platform, which can help us improve our offerings.
6. Use Parent Dashboard: Utilize the parent dashboard features to monitor engagement and performance.
7. Encourage Reflection: Prompt your child to reflect on their learning experiences.

If you have any queries, please do not hesitate to contact us.

Your sincerely

Miss M Burke
Assistant Headteacher
