

22 May 2023

Dear Parent/Carer

Year 9 and 10 - Medicine in Action Lectures – Friday 30 June 2023 (virtual)

We have arranged for Year 9 and 10 Science students to attend the Medicine in Action Lectures virtually this year. These will be live streamed and are designed to engage students within Medicine and show them the wider applications of the subject. This is optional and is not essential to the curriculum nor for completion of the syllabus being studied. However, we strongly recommend attendance to this event for students' future University applications.

During the session, students will hear from speakers about current research and also from the OCR exam board who give tips and ideas for how to succeed in exams.

Speakers at this event include:

- James Piercy – hear the story of his recovery process following a head injury
- Tim Underwood – Gastrointestinal Surgeon
- Ezgi Ozcan – GP Trainee Doctor
- Leanna Luxton – Stroke Rehabilitation Specialist

The cost of attendance for this event is £10.20 and there are 20 places available which will be offered on a first come first served basis, by payment using our online e-payment system, with your existing sQuid account. You will be able to do this from 6pm on Tuesday 23 May (closing: 10pm on Thursday 25 May 2023).

Students will be able to use the canteen during the breaks in the talks. If they usually bring a packed lunch, then they can do so. Students will also need to bring headphones and a note pad and pen. The event will take place in room C13 and students are to attend morning lessons as per their timetable and go to room C13 at 10.30am, where the event will commence at 10.45am. The event will end at 3.45pm and we ask you please arrange collection of your child at this time.

If you would like any further information about this particular trip, please do not hesitate to contact me.

Yours sincerely

Ms L Winchcombe
Associate Senior Leader - Science
