

Tuesday 5th May 2026

Dear Parent/Carer

We are always looking for ways to support learning both in school and at home, and we are pleased to introduce an exciting tool that can help - **MagicSchool.ai**.

MagicSchool.ai is an educational platform powered by artificial intelligence, designed to support students with their learning in a safe, structured, and engaging way. It acts as a helpful assistant, offering guidance across a wide range of subjects while encouraging independent thinking and creativity.

How MagicSchool.ai Supports Home Learning

1. Personalised Learning Support

Every student learns differently. MagicSchool.ai can adapt explanations to suit individual needs, helping students better understand topics at their own pace.

2. Homework Help and Revision

Whether it is breaking down a difficult concept, checking understanding, or generating practice questions, the platform provides immediate support - making homework time more productive and less stressful.

3. Encouraging Independent Thinking

Rather than simply giving answers, MagicSchool.ai is designed to guide students through problems step-by-step, helping them build confidence and problem-solving skills.

4. Writing and Creativity Tools

Students can use the platform to improve their writing, generate ideas, and refine their work - supporting literacy development across subjects.

5. Safe and Education-Focused

Unlike general AI tools, MagicSchool.ai is built specifically for education, with safeguards in place to ensure appropriate and relevant content for students.

How Parents Can Support

We encourage parents to explore MagicSchool.ai with their children. Asking your child to explain what they have learned, using the tool can reinforce understanding and create valuable learning conversations at home.

Our Recommendation

We believe MagicSchool.ai can be a valuable addition to home learning routines, helping students become more confident, independent learners. Used alongside classroom teaching, it offers an extra layer of support that is available anytime it is needed.

If you have any questions or would like guidance on how to get started, please do not hesitate to get in touch.

Thank you for your continued support in your child's education.

Yours sincerely

Miss M Burke
Assistant Headteacher
